RFMW Ltd., and API Technologies Corp. Announce Worldwide Distribution Agreement

2/15/2015 – San Jose, California: RFMW Ltd. and API Technologies Corp. today announced a worldwide distribution agreement effective February 1, 2015. API Technologies Corp. (NASDAQ:ATNY) ("API") is a leading provider of high performance RF, microwave and millimeterwave solutions. RFMW Ltd. is a specialized distributor providing customers and suppliers with focused distribution of RF and microwave components as well as specialized component-engineering support.

Under the agreement, RFMW will be an authorized distributor of a full range of standard, customizable and fully custom RF, microwave, and microelectronics products. Featured products include antennas, RF and microwave amplifiers, high performance filters, thin film chip resistors, mixers, and passive components such as rotary joints, Wireline, and phase shifters.

The partnership will introduce API's standard and configurable RF and microwave products to RFMW's diverse, worldwide sales channel and enable customers to receive rapid delivery of these quick-turn product solutions.

"We are pleased to have RFMW as a new distribution channel and look forward to partnering with them to offer a variety of our quick-turn product solutions to customers in the commercial aerospace, defense, and industrial markets," said Michael Valo, API Technologies Corp. "RFMW's expertise in customer support and product management will be an asset to us as we strive to expand our customer base worldwide."

According to Joel Levine, President and CEO of RFMW, "API's product offering allows RFMW to help more customers find the solutions they're looking for and API's products add a new dimension to the customer applications we can support."

Going further, Mr. Levine added "Broadening RFMW's product offering with API also allows more options for customer segments requiring U.S. manufactured components."
